WHOLESALE TRADE SUFFERS SERIOUSLY

Yellow Fever Plays Havoc With
New Orleans Merchants.

ALL CASES ARE NOW REPORTED

Physicians Grow More Hopeful Every Day, and the Greatest Depression Felt in the Crescent City is the Rigorous Quarantining of Other Places.

New cases of yellow fever in New Orleans since 6 p. m. Tuesday—19. Total cases to date 1,099.

Deaths—3.

Total deaths—175.

The increase in the number of new cases of yellow fever in New Orleans up to noon today is offset by the decrease in the death list as compared with the same hours yesterday. It shows the effectiveness of the treatment of cases and conveys an air of encouragement.

No new cases were reported during the morning hours from any point in the state.

New Orleans, August 17.—Except that there were spasmodic showers and a somewhat lower temperature, there was little change in the yellow fever situation and the time of the federal authorities was largely taken up with routine work.

A dozen suspicious cases were reported for investigation during the night, and occupied the attention of the inspectors, but with large percentage of recoveries and the small percentage of deaths, the whole situation was regarded with cheerfulness.

The only depressing influence upon the community is the serious inroads upon trade which has been made by the quarantines. Although many people who do not usually leave the city have gone away on vacation, retail merchants have not suffered severely, but wholesalers whose receipts are measured by the business they do with the surrounding country are still seriously affected. As the regular business season opens here on Sept. 1, strong appeals are being made through circulars and otherwise for aid from the health authorities in cities, towns and counties in restoring freight tariff.

The fact that the physicians are now assisting the Marine hospital service in turning up all the existing cases of yellow fever is evidenced in an examination of the report for the past 24 hours. Of the 61 cases, a duplication having been made, the number 62, thirty or about one-half were reported by doctors as having come within their practice. Of the other 31, Inspector Perkins produced 19 cases of yellow fever and cases presenting symptoms thereof, two were returned by the ward organizations, two by the city board of health, five by the emergency hospital and four by the charity hospital.

Any friction that has heretofore existed has passed away and perfect harmony exists in the work.

The total number of cases treated in the emergency hospital to date is 125, of which number 36 have died. Three cases of yellow fever have been taken from the steamship Sapphire at quarantine, the first vessel from Colon.

Quarantine Situation Improves.

The quarantine improves in some directions and grows worse in others. At Monroe, a conflict arose between a citizen's meeting and the authorities. The citizens in a sudden spasm of alarm, decided to restore the shotgun quarantine. Mayor Forsythe objected, and ordered the military to hold themselves in readiness. Appeal was made to the governor, who said that the orders of the state board of health must be followed or soldiers would be mobilized. The citizens yielded.

Vicksburg has ordered a cargo of sugar to be reloaded and returned to New Orleans, while Governor Vardaman and Secretary Hunter have issued a proclamation paying high compensation to the marine hospital surgeons and calling on county and municipal health boards to co-operate with them in order to lessen the difficulties of the traveling public.

Shreveport is again to open com-

munication with New Orleans, allowing freight to come in that has been fumigated. Fruit and dry goods are excepted.

President Souchon has telegraphed congratulations to the Shreveport authorities. He has also wired to the Richland parish authorities asking them to modify their drastic regulations.

At Covington Dr. Durell, head of the tuberculosis sanitarium, and a noted student of insect life, has been making investigations to discover if the stegomyia exists there. He has examined several hundred mosquitoes and failed to find one. Hundreds of New Orleans people have gone to Covington and its vicinity.

If the entire city responds to the appeal for sulphur fumigation on Sunday, it is estimated that 300 tons or 600,000 pounds will be consumed.

Plenty of Fruit at Mobile.

Mobile, Ala., August 17.—Notwithstanding the report of a banana famine in Chicago from the receipt of bananas at this port today and others enroute, there seems to be enough to supply all northern markets. In business circles it was claimed today that there is the greatest existence of a famine they are doubtful. Receipts today were: Steamer Ft. Gaines, from Bocas Del Toro, 17,000 bunches; Taunton, from Bocas Del Toro, 22,000; Imperator, from Port Limon, 25,000; Ansel, from Puerto Cortez, 23,000; Esparata from Port Limon, 45,000. Total 132,000 bunches.

With the exception of the Ft. Gaines all steamers were up to the United Fruit company. The Esparata, which arrived early this morning, is anchored in midstream awaiting a berth to discharge. She has the record for bringing this time the largest cargo of bananas ever brought to Mobile—45,000 bunches.

Fruit Passes Through State

Jackson, Miss., August 17.—Secretary Hunter, of the state board of health, today gave his consent for banana trains from New Orleans to pass through the state under the rules laid down by the state board of health.

The fruit is to be sent through in tightly refrigerated cars, the ventilators in the roofs to be covered with 20 inch wire. The fruit is to be put on board of fumigated cars at Chalmette and then delivered to the Illinois Central road outside the city, not passing through New Orleans.

REID LEASES ENGLISH MANOR.

America's Ambassador Will Reside in a Handsome Country Home.

London, August 17.—Ambassador Reid has taken a lease on a country seat at West Park, near Amphilil Bedfordshire and Mr. Reid and his family will take up their residence there for winter in a couple of months. The ambassador has secured the property for the term of his stay in England.

West Park is a fine place, of 7,000 acres, on which there is good shooting. The mansion is almost as large as a Dorchester house, and is richly furnished, and well equipped with everything necessary for the entertainment and comfort of house parties. Some slight changes will be made.

The estate is 35 miles from London and Mr. Reid proposes coming to the metropolis daily in his automobile.

New Submarine Boat.

Chicago, August 17.—A special from Cleveland, O., says that Luther C. Thompson has invented a submarine boat which the United States government is examining with a view of adopting it to the navy department. The invention looks like a shark and that is the name of Mr. Thompson has given the vessel. I have studied the actions of the fish for twenty-five years and my boat is constructed to sink just as a fish does, by means of diving blades, said Mr. Thompson. The steering gear used on the submarines is not adapted to the kind of work that vessels of this class are expected to do.

Norway May Be Republic.

Berlin, August 17.—The plan supported by Great Britain for Prince Charles of Denmark to ascend the Norwegian throne has failed according to information received from Copenhagen. The expectation is that Norway will establish a republic.

TRANS-MISSISSIPPI CONGRESS MEETS

Many Prominent Men Gather at
Portland Exposition.

1,000 DELEGATES ARE PRESENT

The First Day's Session Will Be Devoted to Welcome Addresses and Responses—Many Cities Want the Convention Next Year.

Portland, Ore., August 17.—Everything is in readiness for the opening session of the Trans-Mississippi congress, which is to begin a four days' session in Portland today. Delegates by the hundred have been arriving in the city during the past two days and Secretary A. F. Francis estimates that there will be in the neighborhood of 1,000 delegates present when Chairman Rufus P. Jennings, of the executive committee, calls the meeting to order.

Large delegations are here from California, Utah, Colorado, and Texas and Montana, besides a liberal number from all the states west of the Mississippi river.

As is to be expected, the largest attendance will be drawn from the three sister states of Oregon, Washington and Idaho, and the balance of power in the matter of selecting the next meeting place, which shows signs of being a matter of keen competition, will rest largely with the delegates of these states. Already the representatives of Salt Lake, Denver and San Francisco, the three leading candidates now in the field, have now commenced securing converts and so far as can be learned each has about an equal chance in securing the prize.

The session today will be for the most part devoted to the making of welcoming addresses by Governor Geo. Chamberlain, of Oregon; and Albert E. Mead, of Washington; United States Senators Fulton, of Oregon and Piles, of Washington, by representatives of Portland's municipality and the local commercial organizations.

The responses will be made by Governor G. C. Pardee, of California, Governor John H. Mickey, of Nebraska, and ex-Governor David R. Francis, of Missouri.

The only matter of routine business which will be done today is the appointment of the committee on resolutions and permanent organization.

National Reciprocity Conference.

Chicago, August 17.—The national reciprocity conference began a two days' session today at the Illinois hotel with 600 delegates from all parts of the country assembled to discuss reciprocal trade relations. Other countries amended the tariff law, alterations of the interstate commerce laws and kindred laws. The west sent a large delegation, the great stock raising and farming industries of the world were well represented. The eastern states also are well represented at the conference. A notable feature of the convention was the attendance of foreign residents in Chicago representing nearly every country. The conference was called to order at 10:15 o'clock this morning by A. D. Sanders, of Chicago.

Trying to Suppress Boycott.

Shanghai, August 17.—The Chinese foreign board has ordered Chou Fu, the viceroy of Nankin, to make every effort to suppress the boycott which has now been extended to English goods imported. It is supposed, by an American firm, Chinese merchants have asked the general chamber of commerce to assist them to suppress the movement fearing that serious financial trouble will result. Much of the trade of Shanghai is already being transferred to Tien Tsin, where General Yuan Shi Kai, viceroy of Pe Chi Li has prohibited the boycott.

Double Tragedy in Tennessee.

Chattanooga, Tenn., August 17.—A news dispatch from Rockwood, Tenn., says that Will Frazier and John Williams killed Jordan Miller and his son in the mountains near here today. No particulars are obtainable until the return of officers sent there.

MONEY CRISIS THREATENS CHINA

German Banker Who Has Traveled
There Makes Statement.

San Francisco, August 17.—Carl Behrman, Berlin banker, who has been traveling extensively in China, says that a grave monetary crisis is liable to occur in China before long.

"That country," he goes on to say, "seems to be manipulating its coinage in such a manner as to have a less valuable coin circulating side by side with one more valuable, and according to a well known economic law, the less valuable medium is likely to drive out the more valuable one and cause a financial depression."

"Heretofore the 'cash,' a copper coin in value equal to about one-twentieth of the American cent, has been the chief coin in circulation. But recently there has been an extensive mintage of a coin called the 'cent.' It is equal to about ten 'cash.' Of the latter, fully 1,700,000 were coined last year, while the mintage of the 'cash' has not been increased. Now, while the value of the 'cent' is nominally about ten times that of the 'cash' its intrinsic value is not nearly so much larger and I fear less valuable, intrinsically, of the two coins, will drive out the other. I doubt if the industrial strength of China is such as to make it prepared to substitute such a unit of money as the cent for the much less valuable unit on which all transactions have been based in the past."

WIRE TAPPERS ARRESTED.

Gang of Swindlers Are Raided By Force of New York.

New York, August 17.—Having been informed that a band of swindlers posing as wire tappers had netted a large sum by the familiar confidence method of pretending to hold back race results going by wire to pool rooms, the police have raided a brown stone front house, handsomely furnished, in West Forty-fifth street.

Nine men were alleged to be members of the gang were arrested. Eight of the prisoners already had their pictures on the rogues' gallery.

Police reserves were called out to help in the charge on the building. Officers climbed up the front and entered by the parlor window. Eleven men were within and they made a wild dash to escape. Two succeeded, but the others were held up at the back fence and submitted without a struggle.

Lion Trainer Seriously Injured.

Memphis, August 17.—A special to the News-Semitar from Clarksville, Tenn., says that during a performance of a circus here last night a fight took place between a lion and its trainer, Charles Duncan. After the latter entered the cage the enraged animal sprang toward him, Duncan slipped and fell, the lion leaping upon him, biting and crushing the left shoulder in a frightful manner. The trainer discharged a pistol and hot irons were thrust into the cage for the purpose of driving the lion into a corner of the cage. Trainer Duncan was then rescued and removed to a sanitarium, where he is in a serious condition. Duncan is said to live in Louisville, Ky. A large audience witnessed the thrilling experience of the trainer.

Carelessness Cause of Accident.

Macon, Ga., August 17.—The coroner's jury created a sensation by declaring that reckless management and negligent employees caused the disastrous wreck Monday afternoon between the Central of Georgia through freight and the Atlanta division passenger train. The jury took testimony from a number of witnesses, the principal one being the dispatcher at the junction. His story was a most thrilling one. He saw the passenger train move up the road on the main line as it left the junction. Then he caught from the telegraph instrument a report from the freight train that the freight train had left there and was making its way to Macon.

Engineer Charged with Murder.

Sumpter, Ore., August 17.—S. T. Devlin, a locomotive engineer, has been arrested by Sheriff Steele, of Chatawaugus county, N. Y., charged with the murder of a stranger with whom he quarrelled at Otum in that county. Devlin will be taken back to New York.

ENVOYS MAKING LITTLE HEADWAY

Peace Conference Gets Through
Its Work Slowly.

ARTICLE 7 IS BEING CONSIDERED

This Article Refers to the Cession of the Chinese Eastern Railway to China—Hereafter Envoys and Suites Will Take Breakfast at Naval Yard.

Portsmouth, N. H., August 17.—The Japanese envoys, after a trip to Newcastle in a covered motor car, though a cold rain prevailed, arrived at the navy yard at 9:40 today. Russian commissioners reached there a few minutes afterward. It was understood that the subject to be considered today was No. 7, of the peace conditions, which is the one relating to the cession of the Chinese Eastern railroad to China.

After today the peace plenipotentiaries are to be served with their breakfast in their dining room at the naval stores building, at the navy yard. Heretofore a luncheon and afternoon tea had been served in the main room, and the arrangement has proved very attractive.

The menu for breakfast is prepared in French and sets forth an array of dishes calculated to please in the title of the widest variety.

Breakfast will be ready each morning at half past 9 o'clock, and it is the intention to have the meal concluded so that the session of the conference may begin at 10 o'clock.

The trip of the envoys from the hotel to the navy yard this morning was very disagreeable on account of the steady rain, which the Japanese representatives in their open automobiles were uncomfortable.

The morning session of the conference, commissioners of Russia and Japan today ended at 1 o'clock. During the entire time the discussion was upon article 7 of the peace terms, which refers to the cession of the Chinese Eastern railway to China.

The following statement of the conference was made by Mr. Romanoff at the close of the morning session.

"In the morning sitting of August 17 the conference has taken up the discussion of Article 7. The discussion has not been finished, the conference has taken a recess at 1 o'clock. The session will be resumed at 10 o'clock."

"The exchange of views this morning was of a very earnest character, and it is expected that the discussion of article 7 will consume all the afternoon session. Indeed, at 4 o'clock the envoys adjourned for supper, they were not at all certain that they would be able to complete the session today."

Open Door for Siberia.

Tokio, August 17.—The Asahi is discussing the proceedings of the peace conference at Portsmouth and suggests that Japan omitted to demand the open door in Siberia and the opening of Siberian rivers to the navigation of the world. Vladivostok is a free port, it declares, would not benefit Japan much, but it would assist the development of Asiatic commerce.

American Florists Meet.

Washington, August 17.—The annual meeting of American Florists and Ornamental Horticulturalists began its second session here today with an attendance of large attendance. Particular interest was displayed in the report of the judges the prize essay contest, the subject being the ideal emblem of the first prize was awarded S. S. S. S. S. sky, of Philadelphia, the second to Henry Eichholz, of Waverly, N. Y., and the third to J. Augustus, of New York city. Following the inauguration of officers who will meet tomorrow Dr. T. B. Galloway, of the bureau of plant industry, delivered an illustrated lecture on culture and horticulture.

Seventh Satellite Observed.

Bozton, August 17.—The observatory officials received a telegram late last night from the Lick observatory in California that a seventh satellite of Jupiter has been observed.

WALDO NEWS.

An Interesting Bunch of Local and Personal Items.

Waldo, Aug. 17.—N. W. Gibson, an employe of the Seaboard Air Line, has returned from a trip to North and South Carolina.

A house supposed to be on a certain lot, has changed hands several times in the past twenty-five years, and is now to be centrally on the line, much to the dismay of the owner, Mr. Ross, as the adjoining lot is sold and the purchaser, Alf King, claims his purchase, and wants the house removed.

Rev. Thompson will hold services at the Baptist church next Sunday. This will be his first visit here.

The wells are full almost to the surface on account of the continued heavy rains.

Cotton is badly damaged and also other crops by the wet weather.

Rev. C. W. White, pastor of the Methodist church here, has been aiding the pastor, Rev. A. M. Daiger at Williston in a meeting, doing nearly all the preaching, with the result of over fifty conversions.

Charley Sparkman is supplying some of the fattest beef at his market seen here for a long time.

Horses, cattle, hogs and chickens sell at high prices.

Ed Renault has a severe attack of a bilious affection, but is better.

Mrs. Ed Renault returned last night from Portsmouth, Va., where she has been in attendance upon her daughter, Mrs. Plagg, who has had a protracted illness.

Conductor King has purchased the Park residence so long occupied by his mother, Mrs. King, and the Misses King, and adds another Mrs. King to the family, who was the charming daughter of Colonel White of Cedar Key.

A Sunday school convention of the A. M. E. Church held here was largely attended by delegates and home people. Presiding Elder Hawkins presided.

WORTHINGTON SPRINGS.

Interesting Letter From a Sojourner at That Favorite Resort.

Worthington, Aug. 16.—The weather for the past few days has been favorable and the spring has cleared up again to the delight of the many visitors, and by Saturday it is expected the spring will be in fine shape.

The farmers in this section report cotton crop damaged about fifty per cent by the heavy rains.

Among the visitors this week at the springs were Mr. and Mrs. J. W. McDowell and children, Newberry; C. F. Eaton, Mrs. O. E. Eaton, Dr. and Mrs. Tomlinson and Frank Edwards, Lake City; E. W. Smith, L. M. McCormick, Gainesville; Miss Margaret Boston, Bland, Fla.

Frank Edwards tendered a boat party to his young lady admirers Wednesday afternoon, and they had a lovely trip up the Santa Fe. Refreshments were served on the trip.

"Jerry" and "Bud" Wells as hosts do everything in their power to make everyone feel at home. When a guest leaves they generally make up their mind to return again. They have an able assistant in Miss Pet Wells.

The Atlantic Coast Line is preparing to establish an agency at this place, which will be a great convenience, and with a through train service Worthington expects to come to the front.

Capt. J. W. Wells had the misfortune to have two cows killed by the train near this station Tuesday night.

Our worthy groceryman, J. J. Cox, is putting in some new shelves, expecting to enlarge his stock. His trade has increased and he has added another clerk to his force.

Squirrels and fish are plentiful now, and some of the guests have been enjoying themselves in this way.

An Enjoyable Affair.

About fifteen comprised a party which went to the waterworks yesterday and indulged in an old-time fish shoveler, with all the "trimmings," and it is needless to add that the occasion was a most enjoyable one. The shoveler was prepared under the supervision of L. A. Jernigan, who enjoys a fine reputation as a shoveler. There was an abundance, and these present ate to their hearts' content.

CURL BROUGHT PRISONER.

Man Jumped Labor Contract in Taylor County and Was Arrested.

Deputy Sheriff F. S. Curl of Archer arrived in the city Thursday, having in custody John Clark, colored, who was wanted in Taylor county upon a charge of jumping a labor contract.

Clark was arrested at the still of Barber & Co., five miles west of Archer, upon instructions from the authorities of Taylor county. He is six feet four inches tall, and the matter of identification was easy, since the description stated his size and added that the thumb of his left hand was missing.

Officer Curl worked upon the case until he was sure his man was employed at Barber's turpentine still, when he proceeded to the place and made the arrest.

The prisoner was placed in jail in this city and an officer is expected from Taylor county today.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 548 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

Worshippers of Wak.

The Borans are a strange people inhabiting the frontier between British East Africa and Abyssinia. The tribe are polygamists when they can afford it, and by religion they worship the spirit Wak, which requires constant propitiation. This is done by sacrificing their children and cattle. A Boran of any standing when he marries becomes a "raba," and for a certain period after marriage, varying from four to eight years, he is obliged to "throw away" any children that are born to him to appease Wak. After this period he becomes a "kudda" and keeps his children.—London Express.

Careful of Himself.

"When I was your age," said the glided youth's father, "I was at work before 7 o'clock every morning."

"Yes," answered the young man; "if I had all the business cares you used to have maybe I'd get insomnia too."

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the

MISSISSIPPI HAS THE YELLOW FEVER

Nine Slight Cases and One Said to Be Serious.

BEEN THERE ABOUT A MONTH

Twenty-Five New Cases at New Orleans and Only Two Deaths Yesterday—Everything Working Smoothly. Surgeon White Made a Colonel.

New Orleans, August 17.—Nine cases of yellow fever have been discovered at Mississippi City, Miss., within three miles of Gulfport, the terminus of the Gulf and Ship Island Railroad. Fever has existed there since before July 20th, when the announcement was made here. It is in the family of Major Gee of Carrollton, who stopped in New Orleans on his way to Mississippi. Troops have drawn a cordon around the infected district.

There are but 25 cases reported in this city up to noon today and two deaths. An immense amount of wire screening is arriving daily.

Surgeon White has been made a colonel on the staff of Gov. Blanchard and everything is now moving along without the least bit of friction.

One man refused to have his parents' room screened and a quarantine guard will be kept about the house.

OUT UNDER BOND.

Emanuel Montell, Arrested by United States Authorities, Now Free.

Emanuel Montell, the Cuban who for several years conducted a small store and cigar factory at the corner of South University and East Depot streets, this city, and who was arrested a few weeks ago by instruction from the United States authorities upon a charge of manufacturing cigars without affixing the United States revenue tax stamp, has been released upon a bond of \$125 and will be a free man until the next session of the United States court.

Montell is now in this city. He has accepted a position as traveling representative for N. Lopez, a cigar manufacturer of Ocala, and is working his line here. He states that he is enjoying a good trade, but is very much concerned about his predicament in the United States court.

When seen by a representative of The Sun Thursday Montell was neatly dressed and presented a very good "front." He will no doubt do well with his new line.

"Me no know me do wrong make cigars and sell boys without stamp," remarked Montell, in speaking of the offense of the law for which he is now held. "Me make fine cigar and sell two for five cents and three for five cents to boys (meaning people at home) and me no know me do wrong."

Montell will evidently have it impressed upon his mind that he did do wrong before the government will have finished with his case.

HAD A FINE MEETING.

Historical Meeting of Kirby Smith Chapter Was Fine.

The historical meeting of Kirby Smith Chapter, United Daughters of the Confederacy, which was held at the home of Mrs. H. H. McCreary Thursday afternoon, was well attended, and proved a most enjoyable affair.

The program was well selected and admirably rendered, and those present were deeply interested in the proceedings.

Mrs. E. G. Richardson of South Carolina, recently arrived and almost recently married, was the honorary guest of the chapter, and had the pleasure of meeting a great many ladies.

Delicious refreshments were served during the evening, and altogether the affair was a most delightful one.

Prof. Kellum Here.

Prof. J. G. Kellum, secretary of the Board of Control, is spending a day or two here as the guest of Dr. and Mrs. J. H. Alderman. Prof. Kellum is a citizen of Alachua county, and was for years one of the most efficient teachers in the county. He was last term principal of the Gainesville Graded and High School but resigned his position before the close of the term to accept a position as chief clerk in the House of Representatives of the Florida Legislature. He was elected to the secretaryship of the Board of Control after the adjournment of the Legislature and has held that position with credit and ability. Prof. Kellum expects to return to Tallahassee today.

Thousands of Women ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that It Really Does Make Sick Women Well

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished its widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructive ever discovered to act directly upon the uterine system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures, and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues, should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway, write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

The Larkspur.

Great vigilance has to be exercised by the antiquarian painter. This was demonstrated by Sir Laurence Alma-Tadema's picture "The Finding of Moses." Looking at the picture, a well known botanist examined with admiration the painting of the lifelike larkspurs which form the foreground, and then, turning toward the artist and congratulating him on the successful rendering, pointed out that larkspurs were of a comparatively recent growth. The painter laughed as he replied, "So I thought, until dried specimens of them were discovered in some of the recently explored royal tombs of Egypt."

Fishy.

Mother (reproachfully, to her small son)—Janie, where have you been all afternoon?

Janie (uneasily)—At Sunday school, mamma.

Mother—Then how is it you are wet and smell so of fish?

Janie (in desperation)—Well, you see, I've been studying about Jonah and the whale, and—well—I guess it came off on my clothes.—Harper's Weekly.

Lack of Perception.

"Dat dog o' mine," said Erastus Pinky, "keeps on a-tryin' to whup ev'ry four footed critter dat comes down de road."

"He must be a fighter."

"No, suh. He ain' no fighter, but he don' seem able to recognize de fark."—Washington Star.

The Place For Him.

"Notwithstanding what you say about Kraftie," said Goodart, "he seems to be a loyal fellow. He appears to keep in with his friends."

"He should be kept in with them," replied Crabbe. "Most of his friends are in jail."—Philadelphia Ledger.

SEAWEED AS FOOD.

When Dry It Is Richer Than Oatmeal or Indian Corn.

Seaweed is eaten on the coasts of Scotland and Ireland in vast quantities and, though unpalatable and flavorless, is at times the chief food of the poorest.

When dry it is richer than oatmeal or Indian corn in nitrogenous constituents and takes rank among the most nutritious of vegetable foods.

To prepare seaweed for the table it should be steeped in water to get rid of the salt with which it is impregnated, and a little carbonate of soda removes the bitter taste, which to some palates is most disagreeable. It should then be stewed in milk or water till mucilaginous and is best flavored with vinegar or pepper.

Fungi are almost everywhere largely eaten, though in England less attention is paid to them than they deserve, and few kinds appear at table.

A curious error is to suppose that fungi are eatable and toadstools poisonous. No such line of demarcation exists nor, strictly speaking, has the name toadstools any precise meaning.

Very many fungi are edible, and the common agaric usually eaten in England is not the most palatable and wholesome. Few foods are more savory, and none are greater favorites than well cooked fungi, and the souls of vegetarians yearn for them.—Pearson's Weekly.

THE PIE HABIT.

It Is Mainly Confined to Those Born in This Country.

Pie is consumed chiefly by the native Americans. Foreigners eat very little of it. A German, for example, might eat three pies in a year, while a good Yankee would consume as many in a week. The English, the Italians and the French are small pie eaters. The English eat plum pudding, and the Italians like fruit. New England and the middle states constitute the area of greatest consumption, but the pie belt extends far beyond that, as pie is extensively eaten all through the west. Pie is eaten much more generally in the north than in the south. Chicago is a great pie center. St. Louis is not so good. Milwaukee also ranks low. One would not think that there are means for ascertaining the facts in regard to pie consumption, but I have gathered statistics on the subject during the last two years which enable me to compute with reasonable correctness the consumption of pies in every state in the Union. Pies are made in greater variety than formerly, and the supplies are brought from greater distances—in fact, from all parts of the world. The season of pies made of green fruit has been prolonged, and pies are made of canned fruit the year round.—Milwaukee Sentinel.

Run the Hole Out of Town.

A lecturer recently told of a Russian he saw some years ago in Manchuria whose methods of achieving results were not according to the usual code. The Russian had a well in his front yard which he concluded to fill up. He began digging a hole by the side of the well, throwing the dirt from the new excavation into the well.

"In the course of time," said the speaker, "the old well was filled, but there was a hole alongside as big as the first. The Russian went farther away and dug another hole to fill the second. He continued this process of digging one hole to fill the other until he literally ran the hole out of town."

Health and Money.

There is this difference between those two temporal blessings, health and money: Money is the most envied, but the least enjoyed; health is the most enjoyed, but the least envied, and this superiority of the latter is still more obvious when we reflect that the poorest man would not part with health for money, but the richest man would gladly part with all his money for health.

Suggestive.

"Gee whiz!" said George for the twentieth time. "It makes me mad every time I think of the \$10 I lost today. I actually feel as if I'd like to have somebody kick me."

"By the way, George," said the dear girl dreamily, "don't you think you'd better speak to father this evening?"—Philadelphia Press.

The DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage paid, for \$5 a year; \$2.50 six months; \$1.25 three months or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.
Rate for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Gainesville is not seriously affected with "knockers."

And there are weeds about the city that should be cut.

When a woman pets her husband in public, look out for her at home.

It is reported that Grover Cleveland is a poor man. He doesn't look it.

Secretary of Agriculture Wilson is 70 years old and he should retire from the farm.

Nan Patterson now declares she is going to get married, retire from the stage and settle down. Exit Nan, quick certain.

Gainesville is growing so rapidly in the residence portion, that it keeps a person pretty busy who undertakes to keep tab on the new houses being built.

If Russia could only keep the facts out of the papers she would plank down all the money Japan asks for. The bear hates to be joshed about the matter.

The Georgia cotton crop is being badly damaged by the rains. In some sections bolls are rotting on the stalks, and it is rusting and beginning to shed rapidly.

Havana is having her inning now in regard to the quarantine matter, and in spite of the appeals from Dr. Porter and others, will not lift it until New York does.

There is not a case of yellow fever in Florida, and nearly every city in the State is as sick as a button. If there are any that are not clean, let the good work proceed at once.

It is hoped the militia at Seagirt, N. J. will show an improvement in their shooting. The army ought to keep up with the navy, and our navy has been making great progress.

When the Atlantic Coast Line gets its through trains running via Gainesville from St. Petersburg to Jacksonville it is quite certain the track along Main street will have to be taken up and a new line built through the city.

The next Chautauqua, to be held in the city next winter, will be the best ever held in Florida. Dr. Strouse has been watching for talent during his stay this summer, and he has been very successful in booking some of the best.

The fevers that are raging in several Northern States seem to be about as bad as the yellow fever at New Orleans. In Indiana they are having some malarial fever, and the doctors are watching it with a great deal of interest.

The Twice-a-Week Sun is the best advertising medium the merchant can use who wants to reach the farmers. The rate, in proportion to the number of copies sent out, is very low. When you stop to think that 3,000 copies of The Sun are distributed in Alachua county alone every week, its worth can better be understood.

ENCOURAGING PROSPECTS.

The reports from various large business centers of the United States published in the news service of Dow, Jones & Co., on Saturday, constitute an unusually cheerful exhibit of business conditions. They indicate that, taking it all in all, the country is doing at present the largest business in its history. Consumption of all kinds of commodities is on a very large scale. It must be remembered that under normal conditions of sentiment consuming power is proportioned more or less to the year's yield of food products and other commodities depending largely on the bounty of nature. The important fact with respect to the present situation is that nature has been bountiful this year beyond the average, and that, considering everything, the total yield of produce will be one of the largest ever known, and that great prosperity is assured thereby to the farmer, who is the backbone of the country. So far as the material facts therefore are concerned, it is evident that a prosperous fall and winter are before us, and that we have at least six months of active business assured before the question of next year's crops comes up for consideration.

An Eastern concern addressed letters to a number of banks in the West, inquiring to know how much money would have to be sent to that section to aid in handling the crops of the present season, and word was sent back that the banks of that section had sufficient currency to handle the entire product without the assistance of the money from the East. With promptness in shipments there will be no trouble and the crop moving season will not be a very severe test on the resources of the West.

THE EXTENT OF THE LAW.

Hate off to Judge Shaylor of the Duval criminal court. In sentencing James Wall on Wednesday at Jacksonville he went the limit—twenty years at hard labor in the State convict camps. Wall shot Policeman Tucker when under arrest. If such chaps could only get the extent of the law more often, and the Pardoning Board barred, there would be less of that kind of work, for we would have the assurance that those who were sentenced would not be pardoned out in two or three years, and it might cause others to think before they laid themselves liable to a similar judgment. Every man who approves of the enforcement of the law—and he is not of much account who does not—will be pleased to know that we have such men as Judge Shaylor as an antagonist of evil-doers. We tip our chapeau to his honor.

If Booker Washington had only been in Gainesville three years ago and heard the address delivered at the Bethel A. M. E. Church by the National Secretary of the Colored Educational Association of the United States, he might have heard a very good point made in regard to the white people making monkeys of the colored folks. Mr. Wannamaker does not care any more, nor as much, for the colored race than lots of other people; but he just wanted to show what he dare do in defiance of what people would say, when he had Rev. Washington escort his daughter to dinner at the United States Hotel in Saratoga, and then heaved a sigh of regret to think that he had no Miss Dinah there to lean on his own arm. But he is lacking in judgment if he has the opinion that he helped the cause of his friend Booker in the least.

The trial of William Williams at Pensacola is attracting large crowds of people to the court-room. James White, son of the murdered merchant, gave a straightforward statement of the assault made by Williams. It was expected the prosecution would finish yesterday.

A leading Pittsburg steel manufacturer says: "The manner in which this country is consuming finished steel is surprising all of us. There was a little falling off during July, but at the present time we are enjoying a bigger 'boom' than ever. Prompt deliveries are being demanded upon all sides, but we haven't the goods to deliver. In my judgment, we are likely to see higher prices for certain lines of material before the end of the year. Rails will remain at \$28 per ton, but some of the lighter grades must be advanced. Exports are on the increase. Pig iron prices are rising and the Steel Corporation is likely to be a large purchaser before very long."

The fact is apparent that there are many towns in Florida where the value of property has been steadily advancing, and in some cities the increase has been very great. The population of the State is steadily increasing and there is not an industry that is a failure. We have plenty of room for more good people and we will continue to grow just as long as the people who come here can make money.

This seems to be a year of epidemics. The yellow fever is raging at New Orleans; typhoid fever is creating great havoc at Washington, D. C., and at Lunenburg, Nova Scotia, they are having a severe time with cerebro spinal meningitis. In the latter place the summer tourists have left the town through fear and there is a depression in business that will be deeply felt.

There are 175 cities in the United States each having a population of over 25,000, whose aggregate financial transactions equal in magnitude those of the National Government. The total corporate receipts for these cities amounted to \$541,824,208, while the revenues of the United States Government in the fiscal year 1904, exclusive of postal revenues, were \$540,631,749.

The Labor Day exercises at Jacksonville will be held at Lincoln Park. Two bands will make music, and there will be dancing, games, etc.

BAD BLOOD

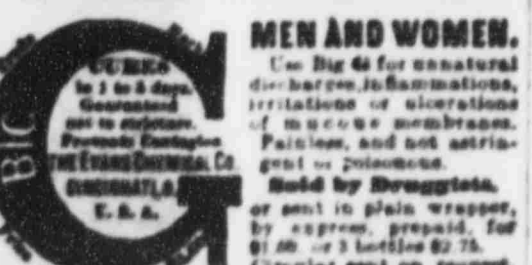

"I had trouble with my bowels which made my blood impure. My face was covered with pimples which no external remedy could remove. I tried your Cascarets and great was my joy when the pimples disappeared after a month's steady use. I have recommended them to all my friends and quite a few have found relief."

HERBINE

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

HENRY HUDSON.

Born No One Knows Where and Die No One Knows How.

Hudson must have been at least forty when he died, but nothing is known of his life before the last four years of it. A certain Henry Herndon, of Hudson, alderman of London and one of the founders of the Muscovy company, has been suggested as his grandfather and the relationship is the more likely because it is certain that some of his name and kin were interested in the company. It may have been upon the recommendation that he was first appointed to the command of a ship in the company's service in 1607, of his early training and previous voyages nothing is known. The beginning of his history is as mysterious as its end. He was born no one knows where, and he died no one knows how. He comes into our knowledge on the quarter deck of a ship bound for the pole, he goes out of it in a crazy boat manned by eight men, and so fades away into the haze that hangs about the desolate ice floes.

The four voyages of Hudson of which we have record were not directed to absolutely unknown waters, but his observations made by his predecessors were so untrustworthy that they were of little service except to mislead him. The object of his first voyage in the service of the Muscovy company was "to discover the pole and to sail across it to the islands of Spicery or Cathay," and on April 19, 1607, he, with John Hudson, his son, sixteen years old, and the ten men who made up the crew of the *Hopeful*, took the sacrament together at St. Ethelburga's, in Bishopsgate, "purposing to go to sea four days after." In the following year Hudson sailed again, still in the service of

M'KINLEY'S DEATH.

**How the Associated Press Worked to
Get and Give the News.**

On the afternoon of Sept. 6, 1901, worn out by a long period of exacting labor, I set out for Philadelphia with the purpose of spending a few days at Atlantic City. When I reached the Broad street station in the Quaker City I was startled by a number of policemen crying my name. I stepped up to one, who pointed to a boy with an urgent message for me. President McKinley had been shot at Buffalo, and my presence was required at our Philadelphia office at once. A message had been sent to me at Trenton, but my train had left the station precisely two minutes ahead of its arrival. Handing my baggage to a hotel porter, I jumped into a cab and dashed away to our office. I remained there until dawn of the following morning.

The opening pages of the story of the assassination were being written, and I ordered a substitute prepared. An inexperienced reporter stood beside President McKinley in the Music hall at Buffalo when Czolgosz fired the fatal shot. He seized a neighboring telephone and notified our Buffalo correspondent and then pulled out the wires in order to render the telephone a wreck, so that it was a full half hour before any additional details could be secured.

I ordered competent men and expert telegraph operators from Washington, Albany, New York and Boston to hurry to Buffalo by the fastest train. All that night the Buffalo office was pouring forth a hastily written but faithful and complete account of the tragedy, and by daybreak a relief force was on the ground. Day by day through the long vigil while the president's life hung in the balance each incident was truthfully and graphically reported. In the closing hours of the great tragedy false reports of the president's death were circulated for the purpose of influencing the stock market, and to counteract them Secretary Cortelyou wrote frequent signed statements giving the facts to the Associated Press. Melville E. Stone in Century.

LITERARY DRUDGERY.

Proude passed seven years in collecting materials and writing his "History of England."

Nearly five years of Irving's time were consumed in writing "The Life of George Washington."

Gibbon devoted over twenty years of his life to the labor of reading for and writing the "Decline and Fall."

Dickens says in the introduction to "David Copperfield" that he spent two years in the composition of that novel.

Bancroft devoted nearly thirty years to his "History of the United States," which is not a history of the country at all, since it ends where the history of the country properly begins.

Cruden labored nineteen years on his concordance to the Bible and immediately after its publication was sent to a lunatic asylum. He never fully recovered from the mental disease brought on by this gigantic undertaking.

Primitive Water Pipes.

Very primitive water pipes of an ancient date have been discovered in the streets of Manchester, England. They were hollowed out tree trunks fitted together so as to make a wooden conduit. The joints were somewhat in the style of those of a fishing rod, the thin end of one trunk being made to fit into the thick end of the other. It is supposed that this means of supplying Manchester with water was in use about 300 years ago, and discoveries of the same kind made in other towns go to confirm that view. The boring through the wood was about four inches in diameter. The supply of water in those days was not only much less in absolute quantity than now, but very much less in proportion to the population.

Higbaldes' Large Families.

few birds have larger families than the highbirds, but, were it not for the number of his family, how could he and his own among so many enemies? His conspicuous size and color always make him a shining mark to the collector, for every village lad in the land has collected Cickers' eggs. He is a show of expediency, however. If his own is robbed, his wife soon lays another set of eggs. It is on record that a pair, when tested by the removal of an egg after egg, laid seventy-one eggs in seventy-three days. — St. Nicholas.

A Story of Napoleon III

Napoleon III., who had no fewer poor relatives to help on than any other sovereign, was trying one day to convince a cousin, whom he had already generously aided, that it was impossible for him to increase her allowance. The princess took the refusal angrily and she was leaving said in a taunting manner:

HENRY HUDSON

Born No One Knows Where and D
No One Knows How.

Hudson must have been a great favorite when he died, but nothing is known of his life before the last few years of it. A certain Henry Hudson, of Highgate, an alderman of London and one of the founders of the Musgrave company, has been suggested as his grandfather, but the relationship is the more unlikely because it is certain that some of his name and kin were interested in the company. It may have been about the recommendation that he was first pointed to the command of a ship for the company's service in 1607, of his early training and previous voyages nothing is known. The beginning of his history is as mysterious as his end. He was born no one knows where, and died no one knows how. He enters our knowledge on the quarter-deck of a ship bound for the pole, he goes out of it in a crazy boat manned by eight sea men, and so fades away into the haze that hangs about the dark days of the goes.

The four voyages of Hudson of which we have record were not directed absolutely unknown waters, but the observations made by his crews were so untrustworthy that they were of little service except to mislead him. The object of his first voyage in the service of the Muscovy company was "to discover the pole and to sail there to the Islands of Spicery and alway, and on April 19, 1607, he with John Hudson, his son, sixteen years old, and the ten men who made up the crew of the Hopeful, took the sacrament together at St. Ethelburga's, in Bishopsgate, "purposing to go in seven days after." In the following year Hudson sailed again, still in the service of the company. They reached the Lofoden Isles in a month and rounded the North cape on June 1. A fortnight later they encountered one of the wonders of the deep which the seamen of that time were so often privileged to witness and describe on June 13.

"One of our company, looking overboard, saw a mermaid. Coming up some of the company to see her, none more came up, and by that time she was close to the ship's side, looking earnestly on the men. A little after a sea came up and overturned her. From the navel upward her back and breasts were like a woman's; they say that saw her; her body was as big as one of us; her skin very white, and long hair hanging down behind of color, black. In her going down they saw her tail, which was like the tail of a porpoise and speckled like a mackerel. Their names that saw her were Thomas Hilles and Robert Kayner."

The only really incredible part of the story is that no more than two men thought it worth while to go on to look at her.—W. J. Fletcher in Macmillan's Magazine.

Forced Liberty

It is not often miserliness gets a straightforward rebuke as in the case quoted by the *Montclair Times*. In the early days of primitive Methodism there traveled in England an eccentric minister named Nettle, who was famous for his plain talking. On one occasion he was preaching missionary sermons at a village so noted for its small collections that he determined to pass the plate himself.

On his round he came to a farmer who was, as Mr. Neale well knew, the richest man in the place. This individual placed a penny on the plate. Mr. Neale stopped immediately and said in a loud voice:

"Take your penny out, man, take it out! Don't you see you've covered your laborer's sixpence?"

The rebuke was effective, and much more valuable coin was placed on the plate.

Cloves

From Java, Sumatra, Malacca, Zanzibar and Gulana come the clove trees. The flower buds of the clove tree when gathered the buds are red and are dried by exposure to the smoke of a wood fire and afterward by the rays of the sun. In a very short time they become of a deep brown color. To secure a monopoly and thus keep up the price the Dutch in the seventeenth century destroyed all their clove trees except those in the island of Ambon. The chief value of cloves lies in the essential oil, which forms about one-sixth of their whole weight.

Seidlitz Powders in Siam

Sale of seidlitz powders a prohibition in Siam. Some fifty years ago, from Bangkok, the then ruling monarch bought a box of seidlitz powders from a trader missionary, and his stepson, following the instructions on the box, mixing the six blue papered powders with a tumbler of water and the six white papered ones into another. Then he proceeded to swallow the mixture with trepidations, one after the other. The result to the monarch may be imagined. In consequence of this the further sale of the remedy in question was prohibited—a prohibition which still remains in force.

St. Augustine will celebrate Labor Day Monday, September 4th. The usual parade will be held in the forenoon, with sports at South Beach in the afternoon.

The county commissioners of Columbia county have called a good roads convention to meet in Lake City September 7th. Delegates are to be elected from every precinct in the county, and it is expected that some definite action will be taken.

Arthur Jenkins, colored, was tried on Monday before Judge Friedman of Bronson on the charge of carrying concealed weapons, plead guilty and was sentenced to pay a fine of \$100 and costs, and in default thereof be confined in the county jail four months. He did not pay the fine.

H. D. Hartt, one of the leading men of Tallahassee, died at Boston, Mass., on Sunday, while en route to his old home at St. Johns, N. B. He had resided in Tallahassee since boyhood and was a member of the Methodist church and also of the Masonic, Knights of Pythias and Elks orders.

Assistant State Auditor Edward A. Crawford died suddenly at his home in Tallahassee Tuesday of heart failure. He had returned from an official trip to Live Oak and was sitting in a chair reading a paper when he complained of feeling bad, expiring before a physician could arrive. He was a native of Georgia and 51 years old.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, \$1.00. Sold by W. M. Johnson.

Woman Dies of Broken Heart.
New York, August 17.—Mrs. Selle Weinstock, wife of a plumber living in this city, died a prisoner on Ellis Island, Monday night. The doctors say heart disease was the cause, but her husband and friends are making a stormy protest over her detention by the immigration officials and declare that the woman died from a broken heart. Weinstock came to this country from Russia four years ago. He left his wife and their three children with his father. Engaging in business on the East Side, he gradually accumulated money enough to bring them over, and also took out citizenship papers recently.

Vermont's State Holiday.
Burlington, Vt., August 17.—Vermont's state holiday, the anniversary of the battle of Bennington, was signaled today by the dedication of a memorial tower to the revolutionary patriot, Ethan Allen, in this city with Vice President C. W. Fairbanks as the principal speaker. Mr. Roosevelt was represented by Secretary of the Interior Hitchcock, and Governor Bell of Vermont and McLean of New Hampshire also participated. Vice president Fairbanks arrived here yesterday.

Won't Rely on Farmers' Reports.
Jackson, Miss., August 17.—The Mississippi Cotton association will not rely solely on farmers for estimates of crop conditions up to and including Aug. 25, on which the general report will be based, but will solicit replies from merchants, bankers, cotton buyers, railroad officials, etc., with the view of getting all information obtainable, and from the most reliable sources, in order that the report will be as accurate as possible for an estimate of this character to be.

A Touching Story
Is the saving from death of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and \$1; guaranteed. Trial bottle free.

Six Prisoners Escape from Jail.
Columbus, Ga., August 17.—Six prisoners have escaped from the city chain gang. The building in which they were confined is next to the police barracks. They got through the sheet iron covering of the floor in some way and then dug their way through the bricks to liberty. None have been recaptured. It is supposed that they fled to Alabama.

Distinguished Lawyer Dead.
Nashville, August 17.—Judge Thomas Curtin, one of the most distinguished lawyers in this state, a native of Richmond, Va., is dead at his home in Bristol, Tenn., aged 53 years. Judge Curtin was closely related to former Governor Curtin, of Pennsylvania, and was a cousin of Justin McCarthy, the Irish historian and parliamentarian.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and \$1. Sold by W. M. Johnson.

New President for Exposition.
Norfolk, Va., August 17.—The board of directors of the Jamestown exposition company have decided to offer the presidency of the company to Henry St. George Tucker, the dean of the law school of George Washington university, Washington, D. C. The action of the directors will be ratified by the stockholders at a meeting to be held Friday. Mr. Tucker, who will succeed the late General Fitzhugh Lee as the head of the exposition, is a son of United States Senator John Randolph Tucker, and for a number of years represented the ninth congressional district of Virginia in the house of representatives.

Negro Charged With Peonage.
Macon, Ga., August 17.—William Strickland, a negro farmer arrested by federal officers near Valdosta, is held in Macon under a charge of peonage. This is the first time the net of this law has been thrown for a negro citizen in the history of the federal courts here and since the act was instituted for the benefit of the blacks this case promises to prove a novel one. Strickland is accused of holding a negro boy in servitude and beating him when he ran away from his employer with a small amount of money. Strickland will have a trial before Commissioner Martin shortly.

Texas Cotton Crop Short.
Dallas, Tex., August 17.—The Galveston-Dallas News will publish today a cotton crop report based upon replies from 562 correspondents in the state of Texas and Indian and Oklahoma Territories, showing the condition on August 11 in comparison with the corresponding date in 1904, to be as follows: Texas, 9.92 per cent worse; Indian Territory, 6.15 per cent worse; Oklahoma, 7.58 per cent better. A light improvement over the July comparison in each instance.

How to Avoid Appendicitis.
Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. J. W. McCullom & Co.

Baptist Convention Postponed.
Helena, Ark., August 17.—The announcement has been made that the meeting of the national Baptist convention, which was to have been held at Chicago, Sept. 13-19, has been postponed until Oct. 25, by order of E. C. Morris, chairman of the executive committee. This action was taken owing to the rigid quarantines in several states because of the Yellow fever at New Orleans.

APPEARING OLD
Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance. It is impossible to do this without retaining a luxurious growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as Dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

IMPROVING HER SKIN.

One Searcher After Beauty Tells of Her Experience.

"I wish the papers would quit publishing these articles that tell you how to be beautiful," says a young matron. "I was fairly content with myself till I began to read them. I had an average good skin, too, but I've steamed it and creamed it and massaged it till it's a wreck. I've been for two weeks trying a new beautifier for it. I've been rubbing my face with slices of onion. It makes your eyes water, and it gives you an unattractive perfume, but the article said it would produce the soft, velvety skin of a child, and I kept it up. Yesterday my husband rose in his wrath.

"What on earth makes you rub your face with onion?" he said. "Wouldn't hamburger cheese do for a change? Why wouldn't potatoes or asparagus do as well? Does it have to be onion?"

"It does," I said.

"You'll have to show me," said he. "Let me see the article that turned your brain. I don't believe it says onions. I believe it says any vegetable you happen to have in the house."

"This made me furious, and I brought out the article. What do you think it said? It didn't say onions. It said cucumbers. I knew it was something you put vinegar on. That's how I happened to get mixed. After this I'm going to let my face alone, but I shan't bear the last of that onion beautifier till I die."—Washington Post.

LANDSCAPE ART.

The Work of Le Notre, Europe's Most Famous Gardener.

Although Le Notre's life was a long and a busy one, he could not possibly have designed all the gardens with which his name is now associated, more or less correctly. The list is an astounding one, ranging as it does from Aranjuez and La Granja in Spain to Wilhelmshöhe and Oranienbourg in Germany, from the villas Albani and Pamphili in Rome to Hampton Court and Kensington gardens in England. But, directly or indirectly, he is responsible for the spirit of all these designs, as he created a school of outdoor art, which, modified and adapted to suit various conditions and climates, spread over the civilized world and is the foundation of all the landscape art of today. It was he who first released gardens from their mediaeval swaddling clothes, widened their narrow borders, did away with their childish decorations of fantastically clipped trees and made them instead dignified parts of a splendid whole. To some people his gardens do not now seem attractive on account of what is called their severity and coldness, but we must remember that they were entirely appropriate to the places for which they were designed and perfectly fitted for their uses and are consequently artistically admirable.—Beatrice Jones in Scribner's.

CRIMINAL INSURANCE.

Receivers of Stolen Goods Usually Carry on the Business.

"Criminal insurance," said a detective, "is the insurance that thieves and blacklegs take out in case of arrest. For instance, you are a second story man. You make about \$2,500 a year, the average second story man's income, and you carry an insurance of \$1,000, for which you pay the big premium of \$125 a year. Now, if you are arrested, the insurance company steps forward and hands you \$1,000. Thus you are able to get the best of lawyers for your defense.

"Receivers of stolen goods are usually rich, and it is these men as a rule who carry on the criminal insurance business. I know of a criminal insurance company in Philadelphia, another in New York and a third in St. Louis. The policies run from \$100 up to \$5,000, and the premiums are always enormous. This is because the danger of arrest is so great.

"Besides the criminal insurance concerns I know of a curious beneficial organization that is conducted among the criminals of Illinois. Each member of the organization pays in \$1 a week, and in case of imprisonment his family receives \$5 weekly as long as his sentence lasts."—Louisville Courier-Journal.

A Reminder.

It is amusing at times to notice the efforts which railway porters make to extract tips from passengers.

The following took place at a large station in the north of England: A porter had been attending to the luggage of a tourist and, not receiving the expected donation, addressed the gentleman as follows:

"Beg pardon, sir, but if any one asks what you gave me what shall I tell him?"

He got his tip.—London Mail.

The Lot's Advantages.

Advertising Expert I've written the praises of all these lots but one. I'm afraid you can't sell that one. Real Estate Agent—What's the matter with it? Expert—Why, it's on an almost perpendicular hillside. Agent—Call attention to its wonderful drainage facilities.—Cleveland Leader.

CHILD LABOR BILL KILLED.

Senate Failed to Pass the Measure—Other Legislative News.

Atlanta, August 17.—After the most heated debate witnessed in the senate during this session of the legislature, voting from 9 o'clock Tuesday morning until 2:30 o'clock in the afternoon, the child labor bill was defeated by a vote of 17 for and 23 against.

It had become generally known that members of the senate intended to debate every phase of the question, so when the senate convened the gallery was crowded with ladies, and the majority of the members were in their seats.

The new county legislation is up to the senate.

The senate committee on new counties has voted favorably on all eight of the bills creating new counties as passed by the house.

Four of these bills were reported favorably to the senate Tuesday afternoon, including Tift, Jenkins, Crisp and Ben Hill. The latter county was originally Cromartie, but was changed to the house to Jeff Davis, and has been changed again by the senate committee to Ben Hill.

In the House.

State and county boards of tax equalizers, to determine the value of property in Georgia for purposes of taxation, are what the house provided for Tuesday in one of the most important bills of the session, which passed through that body by a vote of 11 to 2.

Boards of tax equalizers or assessors have been fought for and contended in the general assembly for years; and yet the house on Tuesday, within the space of two hours, had put through with only two dissenting votes the bill of Mr. Ashley, of the county of Lowndes, providing for this very important revolution in the tax laws of the state.

Mr. Alexander, of DeKalb, offered an amendment to have the state board elected by the people. Mr. Overstreet, of Screven, offered an amendment making members of the board appointive by the comptroller general.

The amendment by Mr. Alexander, of DeKalb, providing for the election of the state board of equalizers by the people, was carried by a vote of 85 to 69.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bess of Morgansville, Ind., had to get up ten or twelve times in the night, and had severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Shoots Woman; Kills Self.

Anniston, Ala., August 17.—John Zebeles, a Greek, shot and fatally wounded Lena McBride and then turned the pistol upon himself and took his own life. Jealousy is supposed to have been the cause of the tragedy. The shooting occurred at the home of Nora Tanner. Zebeles was about 40 years of age and the McBride woman about 30. Zebeles fired shots at the woman, and then turned the pistol and fired a bullet into his own body. It is said that Zebeles had once been a deputy sheriff of Birmingham. He had been here about a month, although he had formerly resided in this city.

Cured Hay Fever and Summer Cold.

A. J. Northrup, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I used many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to aggravate my case. Fortunately I met a man upon having Foley's Kidney Cure and it cured me. My wife has used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Preacher Opposed to Hangings.

New York, August 17.—To strengthen his argument against capital punishment, the Rev. Emila Maury, pastor of the Second Reformed church, Jersey City, will witness the execution of Edward Tapeley, a negro wife murderer, in Hudson county jail on Friday. Mr. Maury contends there is consciousness after the body of a condemned man leaves the platform. He declares that a man who was hanged in Jersey City four years ago gave a signal after the drop fell, showing consciousness although his neck was broken. If Tapeley gives the same signs after the hanging, Mr. Maury will appear before the legislature next winter and ask for the abolition of capital punishment.

Daring Highway Robbery.

Fresno, Calif., August 17.—Meager details of the daring robbery by a highwayman of the Yosemite valley stage running between Raymond and Wawona, have reached here. The stages were held up one at a time 3 miles west of Ahwahnee, a few miles above Grub Gulch. Passengers were relieved of their money. A telephone message was received here by W. A. Veith tonight from his brother, Anton Veith, Austrian consul at Milwaukee, who was a passenger on the stage coming out of the Yosemite valley. The telegram read: "Stage held up. Stopped of money, but not all."

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

Dispensary Voted Down.

Columbia, S. C., August 17.—Union county on Tuesday joined the ranks of prohibition counties. The complete returns showed a majority of 32 and the vote against the dispensary to be on the basis of over 2 to 1. The dispensary forces have been unusually active, bringing here one of their great champions, Senator Cole L. Bleasde, of Newberry, and employing an attorney, W. Boyd Evans, of Columbia, to block the election by having an injunction taken out. This attempt failed. Judge Townsend refusing the injunction.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." Sold by W. M. Johnson.

Captain of Boat Responsible.

Wilmington, N. C., August 17.—Superior Inspector J. W. Oates, of Norfolk, today rendered a decision fixing the responsibility for a recent collision between the excursion steamers, Wilmington and Seagate, on the river here, upon Captain John W. Harper, of the Wilmington, who suffers a suspension of license for six months and five days. Masters of both steamers are backed by owning companies of large capital and an appeal is being made up to the secretary of commerce and labor at Washington.

Peculiar Disappearance.

J. D. Rynan of Buttersville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all drug stores; price 25c.

His work is all hand made and of the best materials and will stand the wear. The people are learning this and do not hesitate to deal with him.

An Educated Mule.

It is seldom that we hear of an educated mule outside of the trained animal shows, and very seldom there, as it is said a mule is a hard proposition to train. But W. S. Dorsey can truthfully assert that he has a trained animal of this variety, and if the reader had been present early yesterday morning he could have proved his assertion.

Mr. Dorsey has in his stable lot a pump from which he supplies water for the stock. He was attracted by a noise in the yard and upon investigation observed that the mule, becoming thirsty, had clinched the handle between his teeth and was working the pump. When a sufficient quantity of water had been pumped, his malice, drunk to his heart's content, after which he lazily sauntered to a convenient corner and lay down.
